John Oszust is Acquitted

In the case of the Crown vs. John Oszust, heard before a judge of the Supreme court at Calgary last week, John Oszust was acquitted. The charge was one of wounding a horse the property of J. Wenger of Morehead.

At the first preliminary hearing, held here several weeks ago the case was dismissed by John Tupper and F. J. Whitlock who sat on the case. It was held by these justices of the peace that there was no evidence to make a conviction on. This however was not the view of the crown and another hearing was given at a later date before an Inspector of the R.N. W.M.P. At this hearing Oszust was committed for trial at Calgary.

After hearing the evidence the jury returned a verdict of "Not Guilty" having retired only for one minute.

Obituary

Mrs. Isabella Welsh

It is with regret that we announce the death of Mrs. Isabella Welsh which occurred at the home of Mr. Thos. Lees on Tuesday morning, June 13th.

The deceased lady who had been suffering from cancer for the past six months, was taken to Calgary during the first week in March, to be operated on. The operation was performed, but it was known that it would afford but temporary relief. After her return from Calgary, Mrs. Welsh was confined to her bed all death relieved her from her suffering.

The late Mrs. Welsh came to Oyen from Kelso, Scotland in April 1914, to reside with her daughter Mrs. Thos. Lees and intended going back to Scotland this summer. By her death she leaves two daughters, Mrs. Thos. Lees, and Mrs. Chas. Stewart, and a number of sorrowing friends to mourn her loss.

The funeral will take place on Thursday afternoon at the Oyen cemetery.

Mrs. Ethel Morris

The funeral of the late Mrs. Ethel Morris, wife of Robert S. Morris of Myleen, Alta., took place on Tuesday afternoon. The service was conducted at the home 10-29-3, and the remains were interred in the Oyen cemetery. The deceased lady was 26 years of age. Though she had been suffering from tuberculosis of the lungs for some time the end was unexpected. We extend to the sorrowing friends our sincere sympathy in the hour of trouble.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him to have him look at it. I took the Pinkham remedies until the tumor was gone, the doctor said, and I had not felt it since. I tell every one I was cured. If this letter will help others who are welcome to use it."

If Britain "Went Dry."

That the British drink for the last year was \$100,700,000, and probably they are now spending a billion dollars a year on something which many of them in the United States and England manage to get along without. The war has cost Great Britain \$1,700,000,000. If we subtract from this the loans to other countries, which would have to be repaid, and the money spent on feeding the soldiers, it would have had to be fed, and clothed anyhow, though not so well as we of peace, should have. If we figure the estimate of Sir George French, the loss to the country at \$2,500,000,000. If then, Great Britain should go dry, as Russia has, its loss would be enormous. In the next three years, not allowing for the gain in an industrial efficiency and the saving from the crime and impurity which has been essentially results from the consumption of a billion dollars—New York Independent.

His Best Girl

Writing from a hospital at the front, a correspondent says—

"You find many of the boys who are down at the rear camp suffering from nerves and they are rather depressed. I found it very interesting to go about having talks with them boys and getting them to tell me their troubles. After a chat it is wonderful how bright and happy they become. One night I was chatting with two lads who had been in the front and more confidential one of them told me that he had been shot and asked me which of them I liked best. I thought of the photographs and said I thought they were both very nice young fellows, for I felt I was reading of two brave boys who had pressed, however, for a decision, I decided to let them choose. I predicted that one (handing the boy the picture) 'Why, hang it all, he has chosen my sister,' remarked the youth with an injured air."

"In spite of this little slip I encouraged the other lad to show me his photograph. He was very reluctant, but eventually produced his wallet, and taking out a photograph, he held it out to me, saying, 'There's my girl, and she is the best in the world.' It was the photograph of an elderly, sweet-faced lady—his mother."

Aeroplane Building

The replenishment of aeroplanes in France constitutes an important industry. Women who take part in their construction are declared to be the dearest hands at the lathe and the drill. The wings require especially delicate handling. The ribs, however, are made of all sorts of materials. They are all done by women under expert supervision.

The French aeroplane engines are said to be the most portable of any in the world. Hundreds are required to meet new demands, as while man is commonly compact and effective, they soon wear out.

Venezuela is coming to the fore as an importer of automobiles. Since the middle of 1914, when the war started, the United States practically has had a monopoly of the automobile trade of the American car imported into Venezuela. The value of the cars imported in 1915 was almost equal to the value of the cars imported during the whole of 1914.

Britain's Last Line

Germany has about twenty to-day, but the hour will come when the hideous cries of delight over murder will give place to another, quite different manifestation. We possess, and shall possess, an element of defence in the "ditch" which surrounds the German front. The ditch is the country which offers the most target for aircraft. That concentration will be their target. That concentration will be their target. That concentration will be their target.

What Point Does

Paint preserve wood. It fills cracks in the weather boarding, and actually makes the house warmer in winter. The sun has had effect on the building that is unappreciated. The siding soon wears away. The siding soon wears away. The siding soon wears away.

A Boon for the Billion

The liver is a very sensitive organ and easily injured. When this occurs there is undue secretion of bile. The acid bile flows into the stomach and causes indigestion. It is a most distressing trouble, and many are prone to it. In this condition a man finds the most remedy in Farnell's Vegetable Pills, which are guaranteed to cure the disorder. There is no better medicine in the entire list of pills.

According to Lloyd's Register

Only according to the records up to 1915, there has been a steady growth in the number of vessels equipped with wireless apparatus and signalling installations. There are now in Lloyd's registry of the world's merchant marine 2,000 vessels equipped with wireless apparatus and signalling systems.

"Don't you hate to have a man tell you the same story twice?"

"Yes, especially if it is one that I don't like."

Decoration Instead of Vaccination

It is alleged that not long ago the French military authorities expressed a desire to award a decoration to thirty British non-coms, and private for bravery on the field. When the detachment of heroes passed through the streets of London, they were surprised to find that it numbered thirty-five. However, it was too late to raise any objection, and the ceremony proceeded.

A Soft Snap

"What do you snap" asked the man of another in the smoking car. "Work for this railroad," replied the other.

It Was your Job—do you say "sacred" asked the man, with a grin at the other passengers.

"Gentlemen, you have replied the second man. "You know the man who goes alongside the train and taps the wheels with a hammer to see that everything's all right? Well, I help him."

It was just after the banquet, and seats were the order. The toastmaster announced a prominent military aviator, and a further stuffed with sage. You will please give your attention to a sage stuffed with turkey."

"So you like to be a soldier, would you, my boy?"

"What kind of a soldier would you prefer to be?"

"A live one."

What does a bevel gear cost?
The Ford owner saves \$12 that the other fellow has to pay for one

\$16.00—Average cost of the bevel gear of cars priced around \$1000 and less
 \$ 4.00—Cost of Ford bevel gear.
 \$12.00—This stays in the Ford owner's pocket book.

Other Ford spare parts are just as low priced in proportion—the 26 most called for parts altogether cost only \$8.04.
 And less than a dollar a year as a total expense for spare parts is not at all an uncommon experience of Ford owners.
